

CENTRE FOR ASIAN TALL BUILDINGS AND URBAN HABITAT

SEMINAR

Planning and Management of High Density Urban Development

by

Anthony Yeh
Chair Professor

Centre of Urban Planning and Environmental Management
and Dean, Graduate School, The University of Hong Kong

Date: 26 February 2003, Wednesday

Time: 5:30 pm

Venue: S802, Meng Wah Complex,
The University of Hong Kong

ABSTRACT

High density urban development is not necessarily undesirable if it is properly planned and managed. Based on the experience of Hong Kong, the seminar will discuss some of the planning and management measures that can make high density urban development more liveable.

ABOUT THE SPEAKER

Anthony Yeh is Chair Professor of the Centre of Urban Planning and Environmental Management and also Dean of the Graduate School, Director of the GIS Research Centre and Institute of Transport Studies, and Chairman of the HK-Pearl River Delta Development Task Force, The University of Hong Kong. He is a Fellow of the Hong Kong Institute of Planners (HKIP), Royal Town Planning Institute (RTPI), Royal Australian Planning Institute (RAPI), British Computer Society (BCS) and the Chartered Institute of Logistics and Transport (CILT). His main areas of specialization are in urban development and planning in Hong Kong, China, and S.E. Asia and the applications of computers in urban and regional planning, particularly geographic information systems (GIS). At present, he is the Secretary-General of the Asian Planning Schools Association and Chairman of the Geographic Information Science Commission of the International Geographic Union (IGU). He is on the editorial board of a number of international journals and has been honorary professors and external examiners of universities and research institutes in China and S.E. Asia.
