# will include **at least** 5 minutes for Q&A + contributions from other participants (from NUS and overseas)

### **\* Note on ProMaRC: Project Management Research Collaboration**

ProMaRC is a collaborating network of Universities, conceived at an inter-University Forum in Aug. 2008 at NUS. See: <http://www.promarc.org.uk/>  
ProMaRC is not a 'closed club'; and so will work with existing networks as well, while other institutions and individuals are invited to join in future activities.
