

## Scoring System

The following table shows the scores that we adopt:

Category A: Core and Elective Subjects							
Level	5**	5*	5	4	3	2	1
Score	7	6	5	4	3	2	1

Category C: Other Language Subjects					
Grade	A	B	C	D	E
Score	7	5.5	4	2.5	1

For consideration of your admission to HKU, the basic principle of the scoring formula is to calculate the total scores of your four score subjects (i.e. English language, Chinese Language, Mathematics and Liberal Studies) and 2 best electives<sup>#</sup>.

<sup>#</sup>If you have done more than 2 electives and the degree programme that you have chosen include a specific subject requirement, the score of that specific elective will be counted towards the scoring formula while the second elective will use the best score of the remaining electives.
